

**FORE STAR JUNIOR GOLF ACADEMY
HIGH SCHOOL PROSPECTS DAY CAMP
June 22 - 26, 2009**

The Day Camp for High School Prospects is recommended for boys and girls currently in 8th or 9th grade who will be trying out for their respective high school's golf team this August. Fore Star Junior Golf makes the assumption that participants in this program are accomplished golfers who need that special edge to compete at the high school level.

We will not re-work your current golf mechanics. We consider your current playing ability and assess your goals in order to design a personalized program to help you reach your potential. Instruction will be designed to eliminate flaws in your current technique and to provide a fitness and practice regimen to help you "practice smart".

One of the disadvantages that young high school golfers experience is the confusion associated with "playing strictly by the rules". At Fore Star Junior Golf we have local high school coaches familiar with not only the USGA Rules of Golf, but also the WPIAL Rules and Code of Conduct. Many lessons are devoted to the explanation, demonstration, and execution of the many complicated rules procedures.

Although we cannot guarantee that you will earn a position on your school's golf team, we can promise that you will improve your golf game as well as your knowledge and love of the game.

CAMP HIGHLIGHTS
